Dated: April 9, 2002

AMENDMENT AND ARGUMENT

Commissioner for Patents
Washington, DC 20231

RECEIVED
APR 19 2002
TC 1700

Sir:

In the above-identified application, we appreciate the Examiner's courteous acknowledgment (in Paragraph 1 of the Official Action) of the official character of the continued prosecution application. We respectfully request that the specification and claims be amended as follows:

Marked-Up Version to Show Changes Made to the Specification

Kindly amend the specification as follows:

Page 3, first full paragraph, replace with the following:

However, the methods of using screen printing have a disadvantage ~~that~~ since the screen is changed in form by repeated printing, the accuracy is low, making it difficult to form a phosphor layer capable of providing a highly precise plasma display, and also have a problem that the cost is high since the expensive screen must be frequently exchanged.

Page 4, first full paragraph, replace with the following:

~~The inventors~~ We have studied intensively on any means for producing a plasma display free from the above disadvantages, and as a result, completed the present invention
